

mobiBLU DHH-100-5 5GB DIGITAL AUDIO PLAYER

The DHH-100-5 is among the first group of digital audio players just now hitting the market that utilize a 5GB 1" hard drive. That's 25% more storage capacity than the Apple iPod mini (4GB). DHH-100-5 can store up to 2500 songs at 64Kbps WMA and supports both MP3 and WMA formats as well as the WMA DRM format which is required for most of the popular online music download sites.

It has a rich feature set that includes a crisp, easy to read display and lightening fast USB 2.0 connectivity to both Windows and Mac computers. A complete list of features can be found on the next page and please note that the DHH-100-5 has a few very unique features:

- ◆ Built-in Stereo Speakers, 300mW(Right) & 300mW(Left)
- ◆ SD/MMC Card Slot for copying files from SD or MMC cards to the player hard drive
- ◆ Direct Line-In Encoding for creating MP3 files on-the-fly from any audio source, without using a PC

DHH-100-5 FEATURES

5GB CAPACITY PROVIDES VERSATILE FILE AND STORAGE SOLUTIONS

Hard Disk Drive format allows multi-format usage as MP3 player and mass storage device.

PLAYS MP3 AND WMA MUSIC FILES AND MORE

Plays MP3 files, WMA (Microsoft Windows Media Audio), WMA DRM, and new formats through Firmware upgrades.

PC-FREE MP3 DIRECT ENCODER

Direct Line-In Encoding from any audio source provides the ability to create and save MP3 files without the use of a PC.

MEMORY CARD COMPATIBILITY

Convenient SD/MMC slot allows backup and complete file transfers of SD/MMC cards commonly used for digital cameras and other portable digital devices.

BUILT-IN STEREO SPEAKERS

High output stereo speakers provide headphone free enjoyment and versatility when listening to voice recordings or enjoying MP3s and other digital audio formats.

INTEGRATED DIGITAL VOICE RECORDER

Use the built-in microphone to record lectures, conferences or voice memos with MP3 format.

PLUG & PLAY USB MASS STORAGE DRIVE

Move your favorite songs or any data files from your PC or MAC to the player. A Windows or MAC PC sees the player as a removable storage drive. No file-management software is required just Plug & Play (Except Windows 98SE).

USB 2.0 SPEED

USB 2.0 transmission speeds of up to 480 Mbps provide fast data and music file transfer rates to and from PCs.

FIRMWARE UPGRADEABLE

Download firmware and get the latest updates to the operating system, expanding functions and features.

GRAPHIC LCD

5-line Graphic LCD displays Music Title, Play-mode, File Format, Battery condition, Volume, Track Number, Elapsed time, Repeat, Equalizer Mode, etc. Bright backlight provides a readable display under any lighting condition.

VARIOUS USER EQUALIZER MODES

Provides 5 basic Equalizer modes (Normal, Rock, Jazz, Classic, and POP) and 10 user-defined Equalizer settings, so that users can adjust individual settings.

* High resolution images are available upon request.
