

## Key Benefits:

- *Integrated with Avid forensic video system*
- *Easy to set up and use*
- *Powerful digital signal processing*
- *Attacks a wide array of common noises*

## Best Uses:

- *Forensic video labs*
- *Avid video production workstations*

## Who Needs This?

- *Forensic audio/video examiners*
- *Technical investigators*
- *Intelligence teams*
- *Video production teams*
- *Private investigators*

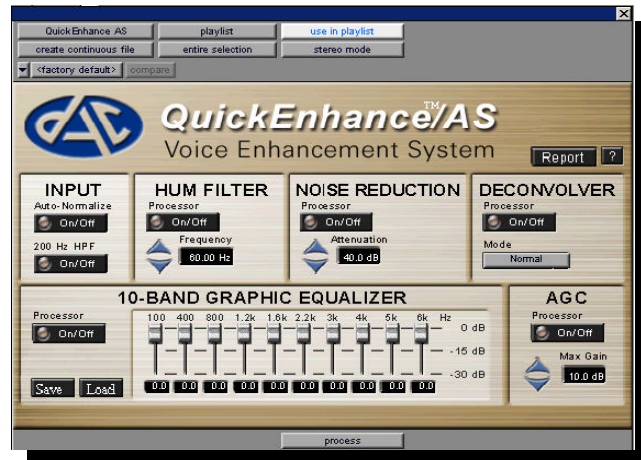

**Also available through Ocean Systems as a pre-packaged AVID Xpress® component!**

**THE POWER TO HEAR – THE POWER TO CONVICT™**

# QuickEnhance™/AS

*Forensic Audio Suite plug-in for Avid Xpress® systems*

QuickEnhance/AS brings together an intuitive, forensic audio clarification toolkit for use with Avid Xpress® video editing systems. QuickEnhance/AS is the perfect complement to quickly reduce interfering noise and extract intelligible speech signals from audio captured on video surveillance tapes.

## Key Features:

- *Easy to set up and use – limited training required*
- *Attacks a wide variety of common noises such as power hum, static, reverberation, acoustic resonance, hiss, muffling, and engine sounds*
- *Five powerful digital processing stages including Hum Filter, Noise Reduction, Deconvolver, 10-band EQ, and Automatic Gain Control*
- *Stereo or monaural signal processing*
- *User-definable, preset profiles for the EQ stage*
- *Report Generator outputs filter settings for future reference and accurate case documentation*
- *Save and recall filter configurations for future processing*

## Technical Data:

- *Initial auto-normalization stages to maximize signal amplitude*
- *200 Hz highpass filter to remove DC offset and low frequency rumble*
- *Operates with Avid Xpress systems running Windows NT/2000*
- *Includes online Help feature*
- *Dual 256th order adaptive filters for improved noise reduction*
- *Parallel port hardware key included; USB key available on request*
- *Supports Windows® ME, 98, and NT/2000*
