# MiniDAC-S

High quality digital recorder with stereo digital filters for easier listening

MiniDAC-S brings together two great technologies for the most effective surveillance recording tool available for law enforcement today! Combining the stereo, digital noise reduction capabilities of DAC's popular audio filters with a state-of-the-art digital recorder, MiniDAC-S is the perfect complement to your body-wire and listening post applications.

### Key Features:

- Records unprocessed audio with filtered listening for the operator
- Same form factor as Marantz PMD series recorders
- Equipped with Sony DAT or MiniDisc digital recorder
- 24-bit stereo signal processing
- 16 preprogrammed digital filter combinations
- Broadband noise filter for removing hiss, crackle, and RF static
- Programming port to build custom filter configurations using the Windows® Configuration Utility
- Both line- and mic- level inputs for connection to any receiver

### Technical Data:

- One 3.5 mm stereo line input; two 3.5 mm mono MIC inputs
- One 3.5 mm stereo line output; dual 3.5mm stereo phone outputs
- 16 programmable configuration memories, each consisting of two stages of audio filtering, plus 30dB AGC
- Supported filters include 1CH Adaptive, Lowpass, Highpass, Bandpass, Bandstop, Comb, Notch, Slot, 20-band EQ, Spectral Graphic EQ, and Adaptive Broadband Filter
- Equipped with floating point TMS320C6711 DSP at 800 MFLOPS
- 10-16 VDC at 1500 mA; 2.5mm barrel plug, positive tip
- External universal AC adaptor supplied
- Enclosure: 9.0 W x 6.5 D x 2.0 H inches aluminum
