

[WATER SOFTENER / GAS MILEAGE INCREASER] DEVICE

THIS DEVICE IS SAFE, EFFICIENT, CLEAN, HAS NO CHEMICALS, POWER SUPPLY, ETC.

IMAGINE PLACING THREE SMALL MAGNETS AROUND YOUR INCOMING WATER LINE AND INSTANTLY SOFTENING YOUR WATER. IT WORKS AND WE WILL SHOW YOU HOW TO DO IT IN THE NEXT FEW PARAGRAPHS. THE CONCEPT HAS NEVER BEEN STANDARDIZED UNTIL RESENTLY, MAINLY BY INDUSTRY AND NOT HOUSE BUILDERS. MANY WATER CONDITIONING COMPANIES WOULD LOSE A LOT OF MONEY IF IT WAS EVER STANDARDIZED AS PART OF ALL HOUSEHOLDS. IT REALLY WORKS. THEORY: AS THE WATER PASSES THROUGH THE OPPOSING MAGNETIC FLUX FIELD, IT SIMPLY CAUSES THE "HARD" MINERALS AND DEPOSITES TO BREAK DOWN AND DISSOLVE INTO THE WATER, GIVING YOU "SOFT" WATER. SIMPLE RIGHT. THEORY OF GAS MILEAGE INCREASER: AS THE GAS PASSES THROUGH THE OPPOSING MAGNETIC FLUX FIELD, IT BREAKS THE LARGE CLUSTERS OF HYDROCARBONS APART AND ALLOWS THEM TO DISPERSE BACK INTO THE FUEL. THIS WILL ACTUALLY INCREASE GAS MILEAGE IN ANY VEHICLE, REGARDLESS OF WHAT OCTANE YOU USE IN YOUR VEHICLE. 90 OCTANE HAS AS MANY CLUSTERS OF HYDROCARBONS AS 87.

PARTS: FOR BASIC LOW VOLUME MODEL.

3X SMALL NEODYMIUM NICKEL PLATED MAGNETS. (PART# NB502575-30 @ 8.25EA).
(.5" THICK, .25" WIDE, .75" LONG. POWER OF 30)
2X STEEL PIPE HALVES. CUT IN HALF MOON CONFIGURATIONS. FIG 1.
(MUST BE 1/2 DIAMETER OF TOTAL DIAMETER OF DEVICE ON PIPE.)
1X ROLL OF DUCT TAPE TO TAPE IT ALL TOGETHER.

PARTS: FOR BASIC HIGH VOLUME MODEL.

3X MEDIUM NEODYMIUM NICKEL PLATED MAGNETS. (PART# IND/LIQ/M1-50 @ 12.15EA).
(.45" THICK, 1.00" WIDE, .75" LONG. POWER OF 50++)
2X STEEL PIPE HALVES. CUT IN HALF MOON CONFIGURATIONS. FIG 1.
(SEE ABOVE SPECS)
1X ROLL OF DUCT TAPE AND ONE TUBE OF EXPOXY GLUE.

DIAGRAMS OF DEVICE, FRONT AND SIDE VIEWS.
