

ADDENDUM
Fast Ni-Cd/Ni-MH Battery
Charger

23-422

The charger features alkaline battery protection and bad battery detection to prevent unnecessary charging. However, the charger might not detect alkaline batteries if you mix alkaline batteries and rechargeable Ni-Cd or Ni-MH batteries in the same charging bay.

Warning: Never mix alkaline batteries and rechargeable Ni-Cd or Ni-MH batteries in the charger for charging. Alkaline batteries might burst, causing personal injury and damage to the charger.
