Precaution to Be	Taken in Handling and Storin	g						
The battery is extremely sensitive to adverse effect of humidity. Be sure to store them in a place which is dry and subject to little temperature								
change. Do not place near the boiler or radiator, nor expose to the direct sunlight. Do not dispose of the battery in fire. Do not charge the battery.								
Do not short-circuit the battery. Do not put in backward position. Do not disassemble the battery, handling in such manner can cause the battery								
to explode, leak and injury.								
Other Precautions								
Install batteries in accordance with equipment instructions. Replace all batteries in equipment at the same time. Do not mix battery systems of								
different types. Do not carry batteries loose in your pocket or carrying bag. Check batteries periodically when in use.
